

STIVEN DELGADO

WEB DEVELOPER

About Me

I am a web developer with a strong passion for creating innovative and high-quality applications that can enhance people's lives. I have knowledge of HTML, CSS, JavaScript, PHP, React, and other programming languages, and I am capable of developing web applications. I am part of a web development team and am always striving to learn and use new tools and technologies. This helps me stay updated with the latest trends in web application development. During my previous experiences, I have worked collaboratively with other developers to complete projects.
